GENERAL PROVISIONS

1. General regulations

Discounts used by KELER Central Depository (Budapest) Ltd. (hereinafter: KELER) and the conditions thereof are detailed in the chapters of this Fee Schedule. KELER does not use rebates.

Payment of fees is in arrears, based on the invoice issued by KELER on the first business day following the subject month, on the services performed pursuant to the order of the Client, until the payment deadline stated in the invoice. The invoice contains all the services provided by KELER in the subject month with the exception of cases stipulated in Point 2 of the section entitled General Provisions. Invoices are issued and handled in accordance with the rules of periodic settlement. Unless otherwise agreed with the customer KELER issues an electronic invoice on payable fees to the customer. KELER sends the electronic invoice with increased security signatures to the customer in e-mail.

If the demat event to be executed with personal involvement by the issuer is cancelled within 3 business days of the event or fails, KELER charges the fee applicable to demat events (creation, over-issuance, cancellation).

Except for the Issuer, in the case of ~~an account holder~~ a Client with an own bank account to keep the financial assets of the ClientAccount Holder, simultaneously with sending the invoice, based on authorization by the Client, KELER shall charge the amount of fees payable to KELER to the account of the ClientAccount Holder.

In the case of a Client, other than the Issuer, without an own bank account, fee payment shall be made by bank transfer; the due date of payment is the 7th business day of the month.

In the case of passing costs to the Client determined by the foreign service providers (e.g. trade repository, sub-custodians, outsourced account managers) in foreign currencies, unless contrary agreement is made, KELER will issue the invoice in Forint based on the MNB rate valid on the day the invoice is issued.

The Client has the possibility to request and pay the invoice in foreign currency for fees stated in Forint in this Fee Schedule. The Client is eligible for this service if it concludes with KELER the agreement to this effect until the 15th day of the subject month.

For conversion KELER CCP uses the MNB foreign exchange rate valid on the date of invoice issuance.

The service fees listed in this Fee Schedule are exempt from VAT, except for the fees where VAT is shown separately.

When determining fees one basis point (bp) equals one hundredth of one percentage point (1 bp = 0,01%).

If an order cannot be processed or a service cannot be provided as stated in the General Business Rules and as determined by the Client owing to circumstances within the control of KELER, when the applicable fee elements are charged KELER will act as if the order was processed or the service provided as usual (for example: if a document in the eDemat process cannot be submitted electronically due to the disruption of the eDemat system and the document is submitted in hard copy, KELER waives the higher fee applicable to communication on paper.)

2. Fee Payment Deviating from the General Rule

For the services specified in Points 1 and 17-35 of Chapter VI the Issuer has to pay the fee of services provided by KELER by the date of performance (in advance). KELER issues an advance invoice on fees paid in advance if the payer of the fee and the service can be clearly identified; having regard to the advance invoice KELER issues the final invoice to the Client after the service is provided, in line with the fees valid at the time the service is provided. The fee of services made use of at eSIN and eDEMAT is payable with bank card, based on the invoice details stated at the online interface KELER issues the invoice to the Client.

In the case of services specified in Points 2-16 of Chapter VI fee payment shall be made by the Issuer based on the invoice issued by KELER on the first business day of the month after the subject month when the service was performed, provided no advance payment was made due to the use of other related services.

With respect to the implementation of corporate actions of securities KELER shall be entitled to agree with the Issuer on a lump-sum (individual) fee for the entire service portfolio that differs from the fees detailed in this Fee Schedule.

KELER shall determine the fees to be charged for services not specified in this Schedule on a case-by-case basis.

KELER has concluded and may conclude agreements with certain organizations whereby such organizations assume custody fees, account management fees and other fees to be charged by KELER. In case of securities issued by these organizations in accordance with the provisions of the agreement KELER shall not charge any fees to users of the service. The list of securities concerned will be published by KELER on the website www.kozzetetek.hu when any change is made to the list.

Megváltozott a mezőkód

In line with individual agreements concluded with the users of the service, KELER may deviate from the fees specified in ~~the Chapters chapters I, VII and VIII~~ of this Fee Schedule.

If for the securities accounts of KELER kept with foreign and/or international custodians KELER provides services in respect of new markets or the custodians announce a new service; KELER shall inform Clients of the new service and determines the applicable fees. The Board of Directors shall approve fees determined at the next meeting.

If during the registration procedure related to the termination of the Issuer, in addition to the instruction to cancel the securities series evidence is produced as to the insolvency of the Company, following final cancellation of the Company from the company registry KELER cancels the dematerialized securities series issued by the Company concerned from the accounts free of charge.

3. Default Interest

In case of any delay in payment of the fees specified in this Fee Schedule and of any receivables of KELER under any title pursuant to the General Business Rules, KELER will charge a default interest. The default interest rate is twofold of the prevailing Magyar Nemzeti Bank (MNB) base rate.

I. Account opening, account maintenance, securities custody and administration fees

Account opening

	Account opening	Fee	GBR	Code
1.	Securities account Cash account opening Foreign currency account	Free of charge	2.3.1.1. 2.3.1.1. 2.3.1.2.

5.	Foreign exchange account maintenance	HUF 10 000 / <u>ClientAccount Holder</u> /month	5.7.	N25

Securities custody and administration

The following formula is used for fee calculation:

Payable monthly fee = $\frac{\text{average daily portfolio value in the subject month} \times \text{days in the subject month}}{365}$. applicable rate

365

Note: For establishing the average daily portfolio value of the securities required for fee calculation and classification in the appropriate range KELER shall take the nominal value of debt securities, the end of month closing market price of equities and the total amount shown on warehouse warrants.

The basis of determining the end of month closing market price is as follows:

- For securities listed on the Budapest Stock Exchange the stock exchange closing price;
- For investment units the net asset value per unit as published by the Fund on the last business day of the month;
- For securities on the OTC market the nominal value of the securities;
- for foreign securities (that are not listed on BSE) the market price determined by the (foreign) institution keeping the account.

With the use of the foreign exchange mid-rate of the MNB on the last business day of the subject month KELER shall establish the HUF equivalent of the foreign exchange market rate of foreign securities provided by the (foreign) institution keeping the account, should such an MNB rate not be available the closing cross rate of the foreign exchange concerned against EUR as published by Reuters shall be used.

When charging fees for the custody of physical securities and the administration of dematerialized securities based on portfolio value ranges, the rates of the relevant range(s) are applied by KELER based on the average daily portfolio value.

For instance in case of a portfolio of dematerialized shares with daily average value of HUF 250 billion, for the first HUF 100 billion the highest rate in the lowest range, for the second HUF 100 billion the second highest rate in range above the lowest range and finally, for the remaining HUF 50 billion the third highest rate in the following higher range shall be used for calculation purposes.

VII. Trade reporting service fees related to the reporting obligation stated in EMIR

	Trade reporting service	Fee	GBR	Code
1.	General membership fee ¹	HUF 80 000+ VAT/month		
2.	Individual membership fee ²	HUF 40 000+ VAT/month		
3.	Indirect membership fee ³	HUF 10 000+ VAT/month		

Note:

¹The general membership fee is charged to clients that send reports to KELER both on their own behalf and on behalf of the other party to the trade.

²The individual membership fee is charged to clients that send reports to KELER on their own behalf only.

³The indirect membership fee is charged to clients that do not send reports to KELER but wish to monitor what trades are reported on their behalf (have query rights only).

In addition to the above listed fees, related to the trade reporting activity undertaken, KELER charges fees identical to the fees charged by the trade repository to KELER and stated publicly at the website of the trade repository (see: http://www.regis-tr.com/images/downloads/Fee_Schedule.pdf)

The fees of the trade repository selected by KELER related to reporting (the valid fees of Regis-TR at the time of the effective date of this Fee Schedule) are listed as follows.

Reporting fee:

- > The reporting fee is charged for all trades (Unique Trade Identifier - UTI) reported. It is charged once for each trade (per UTI), regardless that the data of both parties to the trade are stated in the report.
- > The reporting fee is charged only when the trade is reported for the first time (new trade or backloading), for all other cases (in the case of various corporate actions, trade modification, cancellation or 'collateral and valuation update' reports) this fee is not charged.
- > No reporting fee is charged for trades reported mistakenly and cancelled within the day.
- > If the backloading obligation stated in EMIR is met before the starting date of the reporting obligation (12 February, 2014), neither reporting, nor maintenance fee is charged for such trades.

Fee: both for exchange traded (ETD) and OTC derivatives EUR 0.02 + VAT / reported new trade.

Maintenance fee:

- > The maintenance fee is charged for all trades reported and still open, until the maturity or the cancellation of the trades.
- > The maintenance fee is calculated at the end of each month, for the trades open during the month. (Regarding the fee there is no difference whether the trade is open during the entire month or during two weeks only).
- > No maintenance fee is charged for trades cancelled within the day.

Annual maintenance fee: EUR 0.4 + VAT / opened trade

Example – calculation of fees

The Client reports the following trades to the trade repository through KELER during the month concerned:

- Number of ETD trades: 3 000
- Number of OTC trades: 2 000

Total: 5 000 trades. (The trades reported include both proprietary and client trades).

None of the ETD and OTC trades are closed during the month.

Fee calculation:

KELER general membership fee: HUF 80 000

Reporting fee:

- ETD trades: 3 000 * EUR 0.02 = EUR 60
- OTC trades: 2 000 * EUR 0.02 = EUR 40

Maintenance fee:

- ETD trades: 3000 * EUR 0.4/12 = EUR 100

- OTC trades: $2000 * \text{EUR } 0.4/12 = \text{EUR } 67$

KELER issues the invoice to Clients on the fees stated in this Point VIII. in Forint, at the MNB mid-rate valid on the day the invoice is issued.

Total payable (calculated at an exchange rate of 300): HUF 80 000 + HUF 18 000 + HUF 12 000 + HUF 30 000 + HUF 20 000 = HUF 160 000 +VAT
