

Depository Announcement No. 06/2018

Information related to currency account management by KELER (general rules, list of correspondent banks and account numbers)

Effective from: 13 January 2018

Dear Clients,

This Depository Announcement details the special rules of credit and debit items to the currency accounts managed by KELER, the valid nostro account numbers and correspondent banks of KELER.

The debit and credit items to the currency accounts of our Clients managed by KELER are executed with the involvement of the outsourced account managers of KELER, through the nostro accounts they keep.

KELER provides payment services to the account holder clients in line with the terms and restrictions specified in Section 335/A (3) of Act CXX of 2001 on The Capital Market.¹ Our Clients are legally required to make sure that the payment transactions executed in their KELER accounts have legal grounds in line with the applicable legal regulations.

Pre-advice

Please note that KELER and its outsourced account managers cannot guarantee that incoming payments without pre-advice are credited on the same value date. In the interest of successful matching the amount stated in the pre-advice is required to be identical to the amount actually received.

Pre-advice has to arrive earlier than the coverage.

Fees, costs

This is to draw the attention of our Clients that KELER is entitled to pass to the Client concerned the fees and costs related to uncovered, cancelled payments or payments without pre-advice or related to the items requiring special processing.

In the transfer orders KELER always uses the “shared” /SHA/ charge code, meaning that the Client is to pay the transfer charges of KELER. In case the Client gives transfer order with different charge code, KELER automatically amends the transfer to “shared” /SHA/ instruction and calculates the fees accordingly.

KELER outsourced account managers, nostro account numbers

Please make sure that **all the** payments to the currency accounts kept by KELER are made through the outsourced account managers listed in the following table.

KELER does not assume liability for any damage arising from payments made to the wrong account manager, e.g. to the earlier advised and used account managers.

¹ Payments in the accounts managed by KELER can be made exclusively in order to make financial settlement of the following trades to be executed with the involvement of KELER and related to the services offered by KELER:

- stock market trade,
- over-the-counter securities trade,
- securities placement,
- payment based on securities,
- investment services,
- ancillary service to investment service activity,
- payment or related service based on the obligation represented by the securities,
- commodity market service,
- service offered in the balancing platform,
- and service offered to organized market specified in separate law.
