SCOPE, STRUCTURE, OWNERSHIP, CAPITAL, REGULATION AND AUDIT

The purpose of this section is to understand the ownership structure and financial strength of your institution, as well as the level of regulatory and operational supervision to which it is subject.

Response Necessary/Eligibility Question

1. Rule 17f-7, by reference to Rule 17f-4, requires that, for a depository to be eligible to hold securities of U.S. registered investment companies (such depositories hereinafter referred to as "Eligible Securities Depositories"), the depository must be a "system for the central handling of securities where all securities of any particular class or series of any issuer deposited within the system are treated as fungible and may be transferred or pledged by bookkeeping entry without physical delivery of the securities."

Are all securities of a particular class or series of any issuer that are deposited in your institution treated as fungible, and can they be transferred or pledged by bookkeeping entry without physical delivery of the securities?

Yes

Response Necessary/Eligibility Question

2. Rule 17f-7 also requires that an Eligible Securities Depository "acts as or operates a system for the central handling of securities or equivalent book-entries in the country where it is incorporated," or "acts as or operates a transnational system for the central handling of securities or equivalent book-entries."

Does your institution: (Choose all that apply.)

Act as or operate a system for the central handling of securities or equivalent book-entries in the country where it is incorporated? (please answer 2b)

2b. Please specify the types of securities for which you act as or operate a system for the central handling of securities or equivalent book-entries:

Primarily publicly issued (dematerialized) securities

3. What type of legal entity is the institution? (Choose all that apply.)

Private Company

4. Is the institution operated as a "for profit" or a "not for profit" organization?

For profit

5. Please provide the names of the owners and their ownership interest percentages.

6. Please answer the following:

6a. What is the date of establishment of the depository?

12/Oct/1993

6b. What is the date that the depository's operations began?

12/Oct/1993

7. Under what regulation or statute is the depository established and governed?

Act CXX of 2001 on the Capital Market (Capital Market Act); Act CXII of 1996 on Credit Institutions and Financial Enterprises (Credit Institutions Act); Act CXXXVIII of 2007 on Investment enterprises and service providers on the commodities exchange and the activities that they can undertake (Investment Firms Act); KELER General Business Rules; KELER CCP General Business Rules

7a. Is the regulation or statute electronically available?

Yes (please answer 7b)

7b. If regulation or statute is electronically available, please supply web address(es) here or upload document(s) in question 7c.

KELER General Business Rules Oct 2013

7d. Please provide details of the structure and composition of your Board together with their industry experience and responsibilities in governing the depository.

What are the qualifications to become a board member?

By law college degree or higher and professional experience are needed while criminal record or incompatibility of duties disqualify candidates.

7e. What are the election procedures?

Board members are elected at the General Meeting subject to approval by the supervisory authority, the National Bank of Hungary. The Board has seven members - two of them are appointed by National Bank of Hungary, two of them are appointed by Budapest Stock Exchange and two of them are inner members. The Board elects its chairman - the seventh member - from among its members.

7f. What is the maximum length of time a board member can serve?

Re-election is possible without limitation.

7g. How are the voting powers distributed amongst the board members (i.e. does each board member have one vote or do certain members have additional voting power)?

Each board member has one vote. In case of vote-equality, the vote of the chairman would be decisive.

7h. Who is responsible for regulating the board members?

Certain legislation, the company general meeting, and the supervisory authority, the National Bank of Hungary are all in a sense responsible for regulating Board members. For the purpose of supervision of the Board the General Meeting elects the Supervisory Board.

Response Necessary/Eligibility Question

39. Are procedures and controls (firewalls) in place to avoid systemic collapse or contamination if one of the linked entities should experience business interruptions for whatever reason?

Yes (please answer 39a)

39a. Please explain:

KELER prepared its formalized Business Continuity Plan (BCP) with consultancy and quality assurance from KPMG Hungary Ltd. in 2003. With the preparation of the BCP KELER had the following goals: - To ensure the continuity of business operations in case of undesirable events. - In case of any disruption in normal business operations, to resume operations within the shortest possible time at the lowest possible cost. The cornerstone of our BCP is the in-depth analysis of the potential risk factors and their possible effects on the operation of the company, based on which the critical business processes and their supporting resources were defined. In order to manage extensive crisis situations, a back-up site was set up in 2004, which serves as an alternative site for operations and an alternative workplace for staff if the operations can not be continued at the prior site. Data are replicated real-time in the back-up site. Business Continuity Plan (BCP) ensures the expected business continuity in case of incidents, partial stops or crisis. In the event that KELER is unable to provide the service supported by alternative means in accordance with its BCP or in case the Clients' co-operation is required KELER notifies Clients without delay. KELER communicates updates primarily via e-mail to both network management and operations contacts. The latest BCP-Disaster Recovery Plan (DRP) testing of KELER's back-up

site workstations and most of its business processes was carried out by KELER in September 2013. The real life disaster recovery test was carried out successfully, clients were using KELER's services without any problems and the test did not substantially influence day-to-day operations.

40. Has a business interruption recovery plan been developed in the event the linkages should become inoperable for any reason?

SETTLEMENTS

The purpose of this section is to identify the model of settlement employed, the relationship between cash and securities, and the basis on which participants meet their obligations.

48. The Committee on Payment and Settlement Systems of the Bank for International Settlements (BIS) has identified three common structural approaches or models for linking delivery and payment in a securities settlement system. Please indicate which model your procedures most closely resemble (Please refer to details on the models within the "Help" section located below this question): (Choose all that apply.)

Model 1 - Gross, Simultaneous Settlements of Securities and Funds Transfers. (please answer 48a), Model 3 - Simultaneous Net Settlement of Securities and Funds Transfers. (please answer 48a)

48a. Please briefly describe your settlement process, including how your settlement procedures may vary from the model chosen above (and as described below in the Help section)?

No difference from standard models. Note: Model 1 for off-exchange settlements, Model 3 for on-exchange cash market settlements

Question 48 Help:

Model 1 - Gross, Simultaneous Settlements of Securities and Funds Transfers. These systems settle transfer instructions for both securities and funds simultaneously on a trade-by-trade (gross) basis, with final (irrevocable and unconditional) transfer of securities from the seller to the buyer (delivery) occurring at the same time as final transfer of funds from the buyer to the seller (payment). The securities settlement system maintains securities accounts and funds accounts for participants. Transfer of securities and cash are made by book-entry.

Model 2 - Gross Settlements of Securities Transfers Followed by Net Settlement of Funds Transfers. These systems settle securities transfer instructions on a trade-for-trade (gross) basis, with final transfer of securities from the seller to the buyer (delivery) occurring throughout the processing cycle, but settle funds transfer instruction on a net basis, with final transfer of funds from the buyer to the seller (payment) occurring at the end of the processing cycle.

The securities settlement system maintains securities accounts for participants, but funds accounts are usually held by another entity (often a commercial bank or the central bank). Securities are transferred by book-entry, such transfer being final at the instant the entries are made on the securities settlement system's books. The corresponding funds transfers are irrevocable, but not final. During the processing cycle, the system calculates running balances of funds debits and credits, the balance being settled at the end of the processing cycle when the net debit and net credit positions are posted on the books of the commercial bank or central bank that maintains the funds accounts. Settlement of funds accounts may occur once a day or several times a day.

Model 3 - Simultaneous Net Settlement of Securities and Funds Transfers. These systems settle transfer instructions for both securities and funds on a net basis, with final transfer of both occurring at the end of the processing cycle. Settlement may occur once a day or several times a day. The securities settlement system maintains securities accounts for participants. Funds accounts may be maintained by another entity, either a commercial bank or the central bank.

During a processing cycle, running balances of debits and credits to funds and securities accounts are calculated. All funds and securities transfers are provisional until the end of the processing cycle, at which time book-entry transfer of securities take place. If and only if all participants have sufficient balances of funds and securities, final transfers of the net securities balances and net funds balances are executed.

49. Are the cash and security movements simultaneous?

Yes

OWNERSHIP OF SECURITIES

The purpose of this section is to determine how ownership of securities is represented, the ways the depository maintains ownership or control of securities held in the depository, and the extent to which ownership of assets held by the depository is separated from the proprietary assets of the depository.

This section also considers the process by which the ownership of securities is transferred in the depository and the existence of any liens or claims on the depository securities (such as a clearing lien) that would affect the ownership of depository securities.

50. How are depository eligible securities held by the depository?

Securities in the depository are held in dematerialized form., Securities in the depository are held in certificated form.

51. If depository eligible securities are certificated, can depository eligible securities be held outside of the depository?

By taking the opportunity provided for in Section 352/A of Act CXX of 2001 on the Capital Market as of 1 January, 2010 KELER Ltd. outsourced a part of the general depository activity (safekeeping and certain partial custody tasks). From this date ERSTE Bank Hungary Ltd. (ERSTE Bank) undertakes the outsourced activity according to the instructions of KELER Ltd. The outsourcing did not change the legal relationship between the individual account holders and KELER and does not affect the performance of contractual obligations undertaken by KELER or the liability of KELER. Requests on securities deliveries in and out related to safekeeping and other requests and orders related to physical securities continue to be managed by KELER. Participants must inform KELER before deliveries. For securities delivered to ERSTE Bank the delivering party is required to issue a delivery report, securities are to be put in a package that is to be closed in line with banking standards. Usually the professional transport company used by ERSTE Bank collects the securities from the participants at their depository. The professional transport company delivers securities directly to the vault area. ERSTE Bank acknowledges receipt of the package by signing the delivery report. ERSTE Bank notifies KELER about the delivery of the securities after a detailed check. After the notification the securities are credited by KELER to the requested account or sub-account.
