Szűcs Ákos Balázs
Managing director

Annex 1

Validity terms of the certificate

1. Review of the system evaluation must be enforced in the following cases in order to confirm the results of the initial system evaluation certified in this document, to maintain the validity of certificate:
 - responding to the main modifications in the system architecture or functionality (special system evaluation review).
2. Significant changes in the architecture or functionality of the system under operation must be reported by the Customer to the certifier within 30 days after the modification went into operation. Furthermore, the Customer must send the documentation of the change in detail which are commensurate with the former evaluation level. The certifier evaluates the effects of the modification and decides on the necessity of a special system evaluation review in order to maintain the certificate validity.
3. When compliance is achieved, the certifier fills out a Certificate Maintenance Record for the modified system state. The terms of the planned or special system evaluation review must be provided by the Customer.
4. The certificate is valid in the context of the systems listed in the Certification Report chapter 3.

HUNG-T-ZART-828-2022

Annex 2

Document containing the requirements

NIST Special Publication 800-53 Revision 4 Security and Privacy Controls for
Federal Information Systems and Organizations

Annex 3
