GENERAL PROVISIONS

1. Principles

KELER Central Depository Ltd. (hereinafter: KELER) publishes in this Fee Schedule the fees payable for the services offered, the available preferences and the terms of preferences, and the provisions on fee payment and invoicing.

KELER applies the following pricing principles related to the core services¹ offered; deviation from these principles is not possible:

- The fees of services cover the actual costs of services and support the internal operation of KELER, and allow the development of existing and new services in order to ensure that KELER operates as a reliable, client-focused infrastructure that adjusts flexibly to the changes in the environment.
- The fees are in line with the prevailing regulatory environment.
- In addition to ensuring prudent and regulated operation, KELER makes efforts to meet the profitability expectations of shareholders on an ongoing basis.
- KELER forms services in cooperation with Clients, in line with their needs, and gives Clients the right to give their views on the applicable fees.
- It applies a transparent system of preferences, promoting the enforcement of business and market requirements.
- The Board of Directors is competent to approve the Fee Schedule. The Management of KELER makes a proposal to the Board of Directors to change fees due to the launch of a new service or based on periodic reviews related to existing services.
- When the prices of new services are determined, KELER takes into account, if possible, the publicly known price level in competitive markets and the international markets.
- KELER does not offer rebates.

KELER can offer fee preferences to Clients from the fees of core services offered, based on the absolute volume of the service(s) used and transactions, in the form of discounts. The related details are stated in the relevant chapters.

Törölt: in the following cases:Based

For the services not itemized in the Fee Schedule, KELER may establish individual fees by considering the aforesaid principles, according to Section 9 of Chapter V of this Regulation (Supporting individual requests, fees related to information and data supply).

If an intermediary (e.g. sub custodian, nostro account manager) is used related to a service offered by KELER to a Client, KELER automatically transfers to the Client the additional costs invoiced to KELER by the intermediary in addition to the cost of the transaction (e.g. registration cost, stamp duty, tax abroad, fee of uncovered or cancelled orders, credits received without advice, items requiring special treatment, etc.).

¹ Fees related to core services pursuant to the annex of Regulation (EU) 909/2014 of the European Parliament and of the Council (CSDR):

- I. 3.,
- II.,
- III. 1., 2., 3.,
- VI. 4., 5., 7., 8., 9., 10., 11., 12., 13., 14., 15., 16., 17., 18., 19., 20., 21., 22., 23., 24.

Törölt: 3.,

Törölt: 6

2. General rules

Payment of fees is in arrears, based on the invoice issued by KELER until the 7th business day following the subject month, on the services performed pursuant to the order of the Client, until the payment deadline stated in the invoice.

The invoice contains all the services provided by KELER in the subject month with the exception of cases stipulated in this section. Invoices are issued and handled in accordance with the rules of periodic settlement. Unless otherwise agreed with the customer KELER issues an electronic invoice on payable fees to the customer. KELER sends the electronic invoice with increased security signatures to the customer in e-mail.

Except for the Issuer, in the case of a Client with an own payment account to keep the financial assets of the Account Holder, simultaneously with sending the invoice, based on authorization by the Client, KELER shall charge the amount of fees payable to KELER to the account of the Account Holder. In the case of a Client without any payment account, fee payment is to be made by transfer; payment deadline is the 10th business day from the date the invoice is issued.

Törölt: Except for the cases detailed in Section 2, in

In the case of passing costs to the Client determined by the foreign service providers (e.g. trade repository, sub-custodians, outsourced account managers) in foreign currencies, unless contrary agreement is made, KELER will issue the invoice in Forint based on the MNB foreign exchange rate valid on the day the invoice is issued.

This paragraph shall not apply to the fees specified in Chapter VIII (fees of LEI Code application).

The Client has the possibility to request and pay the invoice in foreign currency for fees stated in Forint in this Fee Schedule. The Client is eligible for this service if it concludes with KELER the agreement to this effect until the 15th day of the subject month.

For conversion KELER CCP uses the MNB foreign exchange rate valid on the date of invoice issuance.

The service fees listed in this Fee Schedule are exempt from VAT, except for the fees where VAT is shown separately.

When determining fees one basis point (bp) equals one hundredth of one percentage point (1 bp = 0.01%).

If an order cannot be processed or a service cannot be provided as stated in the General Business Rules and as determined by the Client owing to circumstances within the control of KELER, when the applicable fee elements are charged KELER will act as if the order was processed or the service provided as usual (for example: if a document in the DEMAT process cannot be submitted electronically due to the disruption of the DEMAT system and the document is submitted in hard copy, KELER waives the higher fee applicable to communication on paper.)

3. Fee Payment Deviating from the General Rule

For the services specified in Points 1 and 7-24 of Chapter VI the Issuer has to pay the fee of services provided by KELER by the date of performance (in advance). KELER issues an advance invoice on fees paid in advance if the payer of the fee and the service can be clearly identified; having regard to the advance invoice KELER issues the final invoice to the Client after the service is provided, in line with the fees valid at the time the service is provided. The fee of services made use of through eISIN and eDEMAT systems is payable with bank card, based on the invoice details stated at the online interface KELER issues the invoice to the Client.

Törölt: 6-23

Törölt: at

The Issuer pays the fees of the services specified in Points 3-6 of Chapter VI. based on the invoice issued until the 10th business day after the service is provided by KELER.

Törölt: 2-5

The Client pays the fees of the services specified in Points 1-7. of Chapter X based on the invoice issued until the 5th business day after the service is provided by KELER, provided no advance payment was made due to the use of other related services.

Törölt: XII.

With respect to the implementation of corporate actions of securities KELER shall be entitled to agree with the Issuer on a lump-sum (individual) fee for the entire service portfolio that differs from the fees detailed in this Fee Schedule.

KELER shall determine the fees to be charged for services not specified in this Schedule on a case-by-case basis.

KELER has concluded and may conclude agreements with certain organizations whereby such organizations assume custody fees, account management fees and other fees to be charged by KELER. In case of securities issued by these organizations in accordance with the provisions of the agreement KELER shall not charge any fees to users of the service. The list of securities concerned will be published by KELER on the website www.kozzetetelek.hu when any change is made to the list.

If for the securities accounts of KELER kept with foreign and/or international custodians KELER provides services in respect of new markets or the custodians announce a new service; KELER shall inform Clients of the new service and determines the applicable fees. KELER's Board of Directors shall approve fees determined at the next meeting.

If during the registration procedure related to the termination of the Issuer, in addition to the instruction to cancel the securities series evidence is produced as to the insolvency of the Company, following final cancellation of the Company from the company registry KELER cancels the dematerialized securities series issued by the Company concerned from the accounts free of charge.

4. Default Interest

Note: For establishing the average daily portfolio value of the securities required for fee calculation and classification in the appropriate range KELER shall take the nominal value of debt securities, the end of month closing market price of equities and the total amount shown on warehouse warrants.

The basis of determining the end of month closing market price is as follows:

- For **Hungarian** securities (**HU ISIN**) listed on the Budapest Stock Exchange (**BSE**) the stock exchange closing price;
- For **Hungarian** investment units (**HU ISIN**) the net asset value per unit as published by **BAMOSZ**, or in the **absence of this**, the **nominal value**;

The individual membership fee indicated in Section 1.2 is charged to clients that send reports to KELER on their own behalf only.

The fees of the trade repository selected by KELER related to reporting (the valid fees of Regis-TR at the time of the effective date of this Fee Schedule) are listed as follows.

Reporting fee:

Maintenance fee:

- The maintenance fee is charged for all trades reported and still open, until the maturity or the cancellation of the trades.
- The maintenance fee is calculated at the end of each month, for the trades open during the month. (Regarding the fee there is no difference whether the trade is open during the entire month or during two weeks only).
- No maintenance fee is charged for trades cancelled within the day.
